

Maria Beatrice Arasi (ISS).

Maria Beatrice Arasi was born in Messina, 13th September 1994. She achieved degree in **Biological Sciences** in 2016 at the “University of Messina” with 110/110 cum laude and, subsequently, in 2018 the master's degree in **Genetics and Molecular Biology** at “Sapienza” University of Rome, with 110 /110 cum laude. She is currently a **PhD student** at the third year of the XXXIV cycle of PhD course in Cell and Developmental Biology at “Sapienza” University of Rome, with a fellowship from the Istituto Superiore di Sanità. Since 2017 she carried out her experimental activity at the Department of Oncology and Molecular Medicine at Istituto Superiore di Sanità. She took part to the MelaNanomiR project, winner of “PROGETTI DI GRUPPI DI RICERCA Conoscenza e cooperazione per un nuovo modello di sviluppo (L.R. 13/2008 - art. 4), Regione Lazio”. Actually, the objective of her project concerns the study of drug resistance in cancer and the development of synthetic and natural nanoparticles to specific delivery non coding RNA with oncosuppressive function in metastatic melanoma, funded by MAECI.
