

## Josefa Barrero short CV

Josefa Barrero obtained a PhD in Chemistry from the Universidad Complutense de Madrid (Spain). She is a team leader at the directorate Health, Consumers and Reference Materials of the European Commission's Joint Research Centre with more than 20 years of experience supporting EU environment and health strategies in particular the safety of food and consumer products. The development and validation of analytical methods to identify/quantify emerging priority pollutants including nanomaterials and enabling the implementation of legislation is among her research interests. She is responsible of the project Nanomaterials in Food, which aims at establishing a network of MS official control laboratories and build analytical capacity towards the enforcement of the legislative framework related to nanomaterials in food.
