

Angela Bonaccorso is a PostDoc researcher at the Department of Drug and Health Sciences (University of Catania). She completed her International PhD in Neurosciences in 2017. She spent part of her PhD course at UCL School of Pharmacy (London, UK). Her research interests lie in the design and optimization of nanosystems through the design of experiment (quality by design approach) focusing on drug delivery to the Central Nervous System by nose-to-brain delivery. She is author of 22 scientific articles published in international peer-reviewed journals. She attended national and international congresses and she is member of A.D.R.I.T.E.L.F; SCI; CRS Italy Chapter.
