Isabella De Angelis, graduated in Biological Sciences, is researcher at the Department of Environment and Health of the Italian National Institute of Health (Istituto Superiore di Sanità, ISS). She is also member of the ISS Multidisciplinary Unit on Nanomaterials and Nanotechnologies.

Her research interests are focused on the application of cell culture in toxicology, covering both aspects of screening of toxic molecules as well as their action mechanisms, with particular attention to the absorption processes of chemicals and nanoparticles through the epithelial barriers.

She actively participates and coordinates national (Lazio Region, Italian Ministry of Health) and European (NaNOREG, NanoReg2, Gov4Nano, NanoHarmony) research projects focused on nanomaterials safety.

Since 2011, she is Head of Italian Delegation at the OECD Working Party of Manufactured Nanomaterials.
