

Dr. Z. Li received his doctoral degree in optical engineering from Tsinghua University in 2001. Since 2005 he has been working in the Physikalisch-Technische Bundesanstalt (PTB) in Braunschweig, the metrology institute of Germany. The current research activities of his working group are in the field of tactile surface metrology, including development of MEMS/NEMS actuators and sensors for nanodimensional and nanoelectromechanical characterization of nanomaterials.
