

**Fulvio Mancarella** received a MSc degree in electrical engineering and PhD degree in electronics and computer science in 2002 and 2006, respectively, both from Bologna University. In 2009, he joined the Institute of Microelectronics and Microsystem (IMM) of the Italian National Council (CNR) in Bologna. His research interests include development of plasma-based etching processes, design and manufacture of silicon microsystems (MEMS), with specific attention to the development of MEMS-based physical and chemical gas sensors.
