

Manuela Melucci

Research Scientist at ISOF-CNR (Bologna, Italy), Ph.D. in Chemistry (2005, Alma Mater Studiorum). Leader of the group of Synthesis of Advanced Materials @ISOF. Main research interests are the design and synthesis of functional materials for organic optoelectronics and the tailoring of graphene composites for water purification and biomedical applications. Coordinator of EU projects Flagera GO-FOR-WATER and GRAPHIL (Spearhead SH1-Graphene Flagship). PI of National projects (Nano-Carbo-Cat, MEDFil, LIFE-Remembrance) and Scientific manager of several industrial research contracts (Medica SpA, Tetra Pak, Hera). Author of over 90 papers (H-index 28 WoS) and inventor of over 10 family of patents joint with industrial partners.
