

## **Margherita Moreno**

ENEA, C. R. Casaccia, Rome, Italy

Margherita Moreno, staff researcher in the electrochemical storage laboratory at ENEA Casaccia research center. Her work is focused mostly on new materials and advanced Li-ion and post Li-ion batteries development. She is in charge of representing the research group and ENEA at European level: in EERA - JP ES (she is coordinator of SP1 on electrochemical storage), in ETIP Batteries Europe, as technical expert within the secretariat, and in Battery2030+. She also works to promote a proactive networking among all the stakeholders and Italian research groups.
