

Valentina Paolucci received the Degree in Chemical Engineering and Ph.D. Degree from the University of L'Aquila, Italy in 2016 and 2019, respectively. She is currently a post-doctoral researcher in Industrial Engineering and Economics at the University of L'Aquila, Italy. Her work is focused on the preparation and physical, chemical and electrical characterization of both nanostructured metal oxide and 2D-TMDs Transition Metal Dichalcogenides for gas sensing applications.
