

**Giuseppe Francesco Racaniello** obtained the Degree in Chemistry and Pharmaceutical Technology in 2016. In 2017 he obtained the Master Degree in Pharmaceutical Management, Organization and Marketing and Stock Management. He started in 2017 the PhD Course in Biomolecular, Pharmaceutical and Medical Sciences under the supervision of Prof Nunzio Denora, obtaining the PhD degree in 2021. During his research period he worked on the development of new cationic polymers and thiolated polymers, with particular interest in the improvement of drug and nucleic acid delivery, and on the formulation of nanoparticles.
