

Vincenzo Scarano obtained his Master's degree in Chemistry at "Sapienza" University of Rome in 2020. In the same University, today he is a PhD student in Engineering and Applied Science for Energy and Industry at the Department of "Ingegneria Astronautica, Elettrica ed Energetica". His research activity is focused on the design, synthesis and characterization of new molecules in the field of Organic Electronics and on the organic electrosynthesis. He is co-author of 4 publications in international peer-reviewed journals.
