

Michela Secchi

Sustainable Development area

Degree in Environmental Sciences.

She has many years of experience in the field of research into innovative methodologies for assessing environmental sustainability, both at universities and research institutes. Within Centrocot's Sustainable Development Area, she works alongside companies in the textile sector in conducting LCA studies aimed at internal analyses or Environmental Certification. She is a technical trainer in her field of expertise. She is an Auditor of the certification standards GRS - Global Recycle Standard, RCS - Recycled Claim Standard, GOTS - Global Organic Textile Standard and OCS - Organic Content Standard.
